**1. All Right**

**I thought I had the answers. I thought I knew the score.  
But then I turned my head around and looked the other way and this is  
what I saw, I remember you said,**

**"Everything everything will be all right. Everything everything will be all  
right, all right."**

**I felt your presence yesterday and oh, it made me wonder.  
Are you my guardian angel, or do you travel around the universe, telling  
everyone you meet,**

**"Everything everything will be all right. Everything everything will be all  
right, all right?"**

**When the challenges line up like dominoes. That's when I, I've got to  
remember to have faith, mmm, mmm.**

**An angel dropped in the other day to tell me baby, baby don't worry.  
Cuz worry pulls you down, and you wanna go, up, up, up, up, up.  
Start spreading the word, tell everybody,**

**"Everything everything will be all right. Everything everything will be all  
right, all right"...**

**2. Fun in the Sun**

**I wanna have some fun, fun in the sun.  
I wanna have some fun, fun in the sun.  
Cuz it's a beautiful day, and I wanna have some fun.**

**I wanna find my friends, and go out and play.  
I wanna find my friends, and go out and play.  
Cuz it's a beautiful day, and I wanna have some fun!**

### **3. Miracle**

**I told you that you were Brian Jones and he was Jimi Hendrix. You all came back to help each other, and the world.**

**Oh, I know, yes I know, I was overwhelming.**

**But I had never felt, no I'd never felt, anything quite like this before.**

**Imagine, just for a minute. What if it is true? Wouldn't it be a miracle that I found you?**

**I met Janis last week in Donovan's living room.**

**Why don't you ask Jimmy, you said he comes right through you, didn't you?**

**Oh, I know, yes I know, it's overwhelming.**

**But I have never felt, no I've never felt, anything quite like this before.**

**Imagine, just for a minute. What if it is true? Wouldn't it be a miracle that I found you? ...Miracle that I found you...**

### **4. All Together**

**I know you are my friend. I know you're my friend too.**

**You will still be my friend until the sun comes tumbling down.**

#### **CHORUS**

**We're all together, behind each other.**

**If any one needs a hand, we say, "Come on now, let's all get together.**

**What do you need? What can I do?"**

**Don't forget we're all behind you baby.**

**I know you are a joker.**

**I know you love to laugh.**

**You will still be a joker until the stars come sprinkling down.**

#### **CHORUS**

**I know you are my love. I know, I know, it's true, it's you.**

**You will still be my love until the sky comes tumbling down.**

**We're all together...**

## **5. Be Here Now**

**Afraid of moving backwards. Millions spill behind.  
Living in the history keeps the pain alive.**

**Afraid of moving forward. Millions speed ahead.  
Living in the future grounds the fear instead.**

### **CHORUS**

**The beauty of this instant. The simple here and now.  
The mystery's unfolding. The love will show you how.  
Be here now.**

**Underneath it all, there is love.  
Running like white water rapids.  
The river's overflowing. Can't keep that water dry.**

### **CHORUS**

## **6. Believe**

**In a vanilla morning, the sun will rise.  
The birds in the heavens, again will fly.  
I said the birds in the heavens will fly, so high.**

**In a vanilla morning, hot sweat melts fire.  
Believe in the power of your desire.  
What you believe you can achieve, you can achieve, so believe.**

**Got to believe, got to believe.**

**In a vanilla morning, love fills your heart.  
Today's a new beginning, a brand new start.  
What you believe you can achieve, you can achieve, so believe.**

**Got to believe, got to believe**

## **7. Angel**

**Oh angel, sweet angel, I'm right by your side. There's just no way I'm ever  
gonna leave you. Oh angel, sweet angel. You'll never be alone. Oh angel,  
welcome home.**

## **8. Magic Cats & Dogs**

I put on my shoes and put my stuff in a bag, time for moving on.  
Time to find the magic in the universe.

### **CHORUS**

'Cuz I see it, I feel it, I know it, I love it, I hear it (sounds so familiar).  
I see it, I feel it, I know it, I love it, I hear it.  
I'm in love with life, I'm in love with life, I'm in love with life, oh yea.

I woke up this morning and the birds, they were singing.  
They know the magic of the universe.

### **CHORUS**

When I'm walking down the street, and I think of my friends, we're all  
playing and a singing, the fun never ends. See the love all around us,  
it's a sweet sweet sight. Light my fire, my desire, feels so fine to be alive.  
**FEELS SO FINE TO BE ALIVE, ALIVE, ALIVE, YEAH!**

### **CHORUS**

#### **9. Almost a Full Moon**

Almost a full moon out tonight.  
All of the stars are shining so bright.  
I miss my baby, you know it's true.  
I miss my baby, yes I do.

I said, baby, baby, I love you.

Almost a fool & I'm out tonight.  
All of the stars are still shining so bright.  
I love my baby, you know it's true.  
I love my baby, yes I do

I said, baby, baby, I love you.

Almost a full moon out tonight.  
All of the stars are shining so bright.  
I want my baby all my life.  
Life with my baby's gonna be all right

I said, baby, baby, I love you.

## **10. Just One**

**There's so many people suffering tonight.  
Wouldn't it be something if we each helped just one?**

**Just one, yea Just one.**

**There's so many choices we make every day, without thinking about them.  
Wouldn't it be different if we each felt just one?**

**Just one, yea just one.**

**There's so many of us suffering tonight.  
Don't you think we'd change the world if we could each help ourselves?**

**Just one, yea, just one.**

## **11. Love Will Win**

**I am alone. I am free. I am who I want to be.  
They don't know me. Can't see me. Right beside, they look away.  
Say they love me and then, well there's nothing more to say.  
Hold their heads, turn around, walk away.**

**Send love, walk away, send love, love will win someday.**

**There are those who believe. Those who can see.  
Who are not afraid to look in my eyes and feel my sincerity.  
See my light shine. See my heart swell. Have the courage to go on.  
Tear the veils down, fight the evil (later became "see me clearly".)  
Stand behind me proud and tall.**

**We're not alone. We are free. We are who we want to be.  
They don't know us. They can't see us. Right beside, they look away.  
Say they love us and then, well there's nothing more to say.  
Hold our hearts, turn around, walk away.**

**Send love, walk away, send love, love will win someday.**
